**BLACKSTONE-NEY ULTRASONICS TO EXHIBIT AT PB EXPO 2026**

Cincinnati, OH – March 2026

Cincinnati, OH – Blackstone-NEY Ultrasonics, a division of Cleaning Technologies Group, will exhibit at PB Expo, taking place March 11–12, 2026, in Miami Beach, Florida. Attendees can visit the company at Booth #988 to learn more about advanced ultrasonic cleaning technologies for aerospace and precision manufacturing applications.

Featured at the booth will be the AgiSonic AS4000 Ultrasonic Agitation Cleaning System, an advanced ultrasonic cleaning platform designed to deliver powerful and consistent cleaning performance. The AgiSonic system combines ultrasonic energy with controlled agitation to enhance contaminant removal and improve cleaning results on complex and precision components.

Blackstone-NEY will also display its benchtop ultrasonic cleaning tanks, which provide a cost-effective way to introduce the power of ultrasonics into virtually any parts washing process. These portable, self-contained systems are ideal for a wide range of cleaning applications, offering reliable ultrasonic performance in a compact footprint.

Visitors to Booth #988 will have the opportunity to speak with Blackstone-NEY experts and learn how ultrasonic cleaning technology can improve cleaning efficiency, reduce manual labor, and deliver repeatable results for aerospace maintenance, repair, and manufacturing environments.

For more information about Blackstone-NEY Ultrasonics and its complete line of ultrasonic cleaning systems, visit <https://www.blackstone-ney.com>.

About Blackstone-NEY Ultrasonics

Blackstone-NEY Ultrasonics, a division of Cleaning Technologies Group, is a leading manufacturer of industrial ultrasonic cleaning systems. The company provides innovative ultrasonic cleaning technologies used across aerospace, automotive, medical, and general manufacturing industries to deliver precise and repeatable cleaning performance.
