FOR IMMEDIATE RELEASE:

Cortex Engineered Solutions Launches New Website to Showcase Engineering, Manufacturing, and Service Capabilities

Cincinnati, OH – Cortex Engineered Solutions, a division of Cleaning Technologies Group, is pleased to announce the launch of its new website: Cortex Engineered Solutions.

The new site, available at <https://www.ctgcortex.com>, provides an in-depth look at the company’s engineering, manufacturing, installation, and lifecycle service capabilities. Designed to better serve customers and partners, the site highlights Cortex’s ability to take projects from concept through production and long-term support.

Cortex Engineered Solutions offers a cradle-to-grave approach to complex equipment programs, including mechanical, electrical, and software engineering, lean manufacturing, project management, installation, and service support. The company’s centrally located Cincinnati facility enables fast response and efficient logistics for customers across North America.

The new website also shows Cortex’s commitment to innovation, responsiveness, and customer-focused solutions. Visitors can explore the company’s capabilities, learn about its experienced team, and see how Cortex supports customers with scalable engineering and manufacturing solutions designed to improve efficiency and reliability.

“Our goal with the new website is to provide customers with a clear view of what Cortex Engineered Solutions can deliver—from early engineering and prototyping to manufacturing, installation, and long-term service support,” said Greg Allen, President. “The site reflects our commitment to innovation, speed, and being our customers’ first choice.”

Cortex Engineered Solutions continues to expand its national presence, supporting customers across multiple industries with advanced engineered solutions and responsive service capabilities.
